

# Fourth Grade

*Weekly Digital Learning Newsletter*

## General Information & Updates

### HELLO PARENTS & STUDENTS

#### Message from AIG

Don't forget about weekly AIG meets! Each track will meet once a week for 25 minutes. Check your AIG Google Classroom for specific days/times for your track. During this time we will review the Enrichment Challenge work.

#### PBIS & Clipper Cash

Hey Clippers! Make sure you are hanging onto your clipper cash. Students will be able to carry over all clipper cash earned this year to their next year's class. Also, look out for ways to earn virtual Clipper Cash from your teachers!

#### Growth Mindset & Goal Setting

We have been really proud of how students are adapting to this learning environment, and so thankful to parents for supporting a positive learning environment at home. We don't want to let go of our focus on growth mindset, and we need reminders now more than ever. Look forward to shout outs from your teachers during class meets or posted on Google Classroom, and a Quarter 4 digital assembly. Parents, if you are seeing your child demonstrate perseverance at home, please let your teacher know so they receive some recognition!

## Learning Outcomes

### MATH

Students will review our division and multi-digit multiplication standards.

### ELA

Students will listen to Chapters 9 & 10 of Number the Stars. Their focus will shift to putting all the elements of our unit together. They will be writing their own summaries and choosing themes themselves.

**Office Hours**  
**3:00 – 4:00 Daily**  
**Google Meet**

Wednesdays - Math  
Thursdays - ELA

## 4th Grade Star Student Week of 5/11

Dylan from Mrs. Bishop's  
class. Great job Dylan!  
We are all proud of you.
